

THE HENLOPEN CONDOMINIUM COUNCIL, INC.

POLICY: Summer Parking for Scooters

Parking spaces in the Henlopen basement garage are at a premium during the summer months. In addition to automobiles and trucks, the number of scooters housed by Owners in the basement garage has increased. Therefore, to save vehicle-sized parking spaces exclusively for vehicles, the Property Manager will create a specific area where scooters must be parked during the period starting on Memorial Day and running through Labor Day.

The designated scooter parking area will be located approximately twenty (20) feet southeast of the main elevator vestibule, and it will be indicated by specific parking signs posted on basement support pillars. During this period, no Owner, Guest, or Tenants may park a scooter in a vehicle parking space to save that space to park his or her vehicle at a later time or for any other reason.

It is the policy of the Henlopen that during the Memorial Day through Labor Day period, Owners, Guests, and Tenants shall use only the designated scooter parking area to park their scooters.

Policy Adopted By the Henlopen Council on February 25, 2017.
